EVEN HEAT™ BARBECUE

WITH 3 BURNERS

ASSEMBLY MANUAL

85-3068-0 (G52215) Propane
85-3069-8 (G52216) Natural Gas

LIMITED 5-YEAR WARRANTY

Read and save manual for future reference.

Assemble your grill immediately. Missing or damaged parts should be claimed within 30 days of purchase.

For product inquiries, parts, warranty and troubleshooting support, please call 1-800-275-4617.

HEAVY ARTICLE NEEDS 2 TO LIFT

THIS MANUAL MUST REMAIN WITH THE PRODUCT AT ALL TIMES

To ORDER non-warranty replacement parts or accessories,
or to register your warranty, please visit us on the web at
www.colemanbbqs.com

⚠ CAUTION

Sharp edges. Wear gloves when assembling your grill.

⚠ CAUTION

Read and follow all safety statements, assembly instructions, use and care directions before attempting to assemble and cook.

⚠ INSTALLER OR ASSEMBLER/ CONSUMER

This manual should be kept with the BBQ at all times.

⚠ WARNING

Failure to follow all of the Manufacturer's instructions could result in hazardous fires, explosions, property damage, or serious personal injury or even death.

Follow all leak check procedures carefully prior to operation of barbecue, even if grill was dealer assembled. Do not try to light this barbecue without reading the Lighting Instructions section of this manual.

⚠ DANGER

1. If you smell Gas:
 - a. Shut off gas to the appliance
 - b. Extinguish any open flame
 - c. Open lid
 - d. If odor continues, keep away from the appliance and immediately call your gas supplier or your fire department
2. Requires two people to complete the assembly process.
3. Beware of sharp edges.

⚠ WARNING

1. Do not store or use gasoline or other flammable liquids or vapours in the vicinity of this or any other appliance.
2. An LP cylinder not connected for use shall not be stored in the vicinity of this or any other appliance.

THIS BARBECUE IS FOR OUTDOOR USE ONLY
CONTACT CALL CENTRE IF ANY PARTS ARE MISSING

HARDWARE PACK

TOOLS NEEDED FOR ASSEMBLY

- #2 Phillips screwdriver (long and short)
- 1/4" Slotted screwdriver (long and short)
- Adjustable wrench
- Pliers

Before assembling the barbecue, read these instructions carefully.

Assemble the barbecue on a flat, clean surface. Grill is heavy. You should have at least two people assemble the barbecue together.

ASSEMBLY INSTRUCTIONS

Upside down view

Close up

a. Separate the 2 different types of castors:
2 locking castors (EG) and 2 regular castors (EH).

NOTE: Regular castors (EH) need to be assembled to the front of the bottom shelf (EF), and locking castors (EG) need to be assembled to the back of the bottom shelf (EF), as shown in image A.

b. Insert the U Pin (#15) into one of the regular castors (EH), as shown in image B. Attach the regular castor (EH) to the front of the bottom shelf (EF), and use the U Pin (#15) to secure and tighten.

Repeat for remaining 3 castors (EG & EH).

YOU WILL NEED:

ASSEMBLY INSTRUCTIONS

Front view

Close up

Ensure that the locking castors (EG) are firmly locked in the "ON" position before continuing.

Assemble the left side panel (EA) and the right side panel (EB), to the bottom shelf (EF).

YOU WILL NEED:

Back view

Close up

Attach the front brace (CI) to the left and right cart side panels (EA and EB). The top of the front brace (CI) can be identified by two clips located on the top left, and right side of this part.

TIP: One person should align the left side, while the second person assembles the right side.

YOU WILL NEED:

ASSEMBLY INSTRUCTIONS

Front view

PROPANE MODEL ONLY

a. Remove the Quick Check™ tank support bracket (EK3) from the carton located under the control panel (CH).

ATTENTION: Open the carton with care to avoid damaging or cutting the Quick Check™ hydraulic tube (EK2).

DO NOT bend the Quick Check™ hydraulic tube (EK2).

DO NOT pull or place unnecessary force on to the Quick Check™ hydraulic tube (EK2) connection points at the fuel gauge (EK1) or tank support bracket (EK3), as this may cause a leak in the hydraulic tube, resulting in unreliable fuel gauge readouts.

Quick Check™ Fuel Gauge (EK)

PROPANE MODEL ONLY

b. Locate the Quick Check™ hydraulic tube support bracket (A) on the left side panel (EA). Unscrew the hardware and position the hydraulic tube (EK2) behind the bracket (A) and reconnect to the left side panel (EA) (Figure C).

TIP: Do not tighten until all hardware is in place.

- a. Mount the left side burner side shelf (DA) onto the two support brackets, located on the left, upper side panel of the burner box (BA).

- b. Assemble the front of the left side burner side shelf assembly (DA) to the control panel (CH), as shown in figure B.

YOU WILL NEED:

- c. Assemble the left side burner side shelf (DA) to the upper side panel of the burner box (BA), by positioning hardware through the interior of the burner box (BA), as shown in figure C.

YOU WILL NEED:

- d. Complete the left side burner side shelf assembly (DA) by connecting the side shelf to the rear of the burner box side panel (BA), as shown in figure D.

YOU WILL NEED:

ASSEMBLY INSTRUCTIONS

10

Front, left side view

- a. Remove the hardware that is pre-assembled to the side burner valve (CC). Feed the side burner valve (CC) through the bottom of the left side burner side shelf (DA), and re-attach the hardware, as shown.

- b. Assemble the side burner control knob (#13) to the side burner valve (CC).

YOU WILL NEED:

Front, left side view

Left side view

- d. Make sure that the side burner (DC) engages the side burner valve (CC), as shown in figure D.

ASSEMBLY INSTRUCTIONS

10

- e. Using the wing nut (#14), assemble the side burner (DC) to the side burner drip pan (DB), as shown.

YOU WILL NEED:

- f. Locate the side burner electrode wire (DD) and insert into the base of the side burner electrode (DC), as shown in figure E.

- g. Position the side burner cooking grate (DF) onto the side burner drip pan (DB).

11

- a. Remove the ignition battery cover (CE2) and the plastic nut from the electronic ignition box (CE1).

- b. Position the electronic ignition box (CE1) into the heat shield (CE1) and feed the assembly through the opening in the right side panel (EB) and secure using the nut.

- c. Insert one "AA" battery into the battery compartment with the positive end facing outward, as shown. Secure using the ignition button cover (CE2).

ASSEMBLY INSTRUCTIONS

11

ELECTRONIC IGNITION: ELECTRODE ASSEMBLY

Control panel, right side

TIP: The Electrode Set, main burner (CF) and the Electrode wire, side burner (DD), can be found attached to the control panel (CH) heat shield, as shown in figure C.

d. Insert the three Electrode set, main burner (CF) wires into the Electronic ignition assembly (CE1) as shown in figure D.

NOTE: All main burner and side burner electrode wire connection points are the same size.

e. Insert the Electrode wire, side burner (DD) into the Electronic ignition assembly (CE1), as shown in figure E.

f. Insert the Instastart™ ignition button (CE3) two wires into the Electronic ignition assembly (CE1), as shown in figure F.

ASSEMBLY INSTRUCTIONS

12

Front view

Back view

a. Assemble the heat shield (CM) to the bottom of the front brace (CI) as shown in figure A.

YOU WILL NEED:

b. Assemble the back of the heatshield (CM) to the upper back panel (CL), as shown in figure B.

YOU WILL NEED:

13

PROPANE MODEL ONLY

a. Assemble the tank exclusion (EL) to the bottom shelf (EF), as shown in figure A.

YOU WILL NEED:

b. Assemble the tank exclusion (EL) to the right cart side panel (EB), as shown in figure C.

YOU WILL NEED:

ASSEMBLY INSTRUCTIONS

ASSEMBLY INSTRUCTIONS

16

A

B

Bottom of door

C

Top of door

PROPANE MODEL SHOWN

a. Assemble the right door assembly (ED), to the bottom shelf (EF) by inserting the fixed pin (bottom of door) into the hole provided (figure B).

b. Assemble the top of the door assembly (ED) to the door support rail (CP), by pressing in the door support pin and aligning with the hole located on the top right corner of the door.

TIP: Use a paint scraper to press-in the support pin, while the second person aligns the door. The support pin will lock into position when the door is assembled correctly.

c. Repeat steps a, and b for the left door assembly (EC).

ASSEMBLY INSTRUCTIONS

17

d. Position the Even Heat™ heat distribution plates (BD) into the burner box (BA) as shown.

ASSEMBLY INSTRUCTIONS

18

Back view

a. Position the Quick Clean™ grease tray (CJ) onto the right and left tracks (CN and CO), as shown.

b. Position the Quick Clean™ grease cup (CK) in position under the under the Quick Clean™ grease tray (CJ).

19

a. Assemble the warming rack (BF) by inserting the three fixed pins into the three holes provided on the burner box back panel (BA), as shown in Figure A and B.

b. Place the cooking grates (BE) into the burner box (BA), as shown in figure A.

ASSEMBLY INSTRUCTIONS

20

FOR PROPANE MODEL ONLY.

For natural gas model, follow step 21.

- Feed the regulator (CB) through the opening on the left side panel (EA).
- Mount the 20lb propane cylinder onto the Quick Check™ tank support bracket (EK3), located on the inside of the left side panel (EA).
- Attach the regulator (CB) coupling nut to the propane cylinder valve.

⚠ ATTENTION:
DO NOT STORE EXTRA PROPANE TANKS WITHIN BBQ CART.

21

FOR NATURAL GAS MODEL ONLY.

Attach the natural gas hose (CB) to the side burner valve (CC), as shown.

⚠ ATTENTION: In order to complete installation of your Natural Gas BBQ a 1/2" or 3/8" adapter may be required to connect your BBQ's Natural gas hose to your home gas supply. Contact your natural gas supplier to purchase the necessary part.

NOTE: EXTRA HARDWARE WILL BE LEFT OVER FOR NATURAL GAS MODEL.

ADDITIONAL WARNINGS

You have now completed the Assembly of your COLEMAN® EVEN HEAT™ BARBECUE.

NEXT STEPS:

- Position your BARBECUE
- Read SAFE USE CARE MANUAL
- Perform Grill Safety Check-list

⚠ WARNING:
FOR YOUR FAMILIES SAFETY, DO NOT ATTEMPT TO LIGHT THIS BBQ UNTIL YOU HAVE REVIEWED PAGES 4-7 OF THE COLEMAN SAFE USE AND CARE MANUAL. ALL SAFETY AND LEAK TESTS MUST BE PERFORMED BY THE END USER, PRIOR TO LIGHTING THIS BBQ.

⚠ WARNING HOT SURFACES:

POSITION YOUR BARBECUE

Always confirm that this Barbecue is not positioned under a combustible object (e.g., an awning or umbrella) or in a covered area (e.g., porch or gazebo) before lighting it, to prevent a possible fire.

Always confirm that this Barbecue is not positioned under the overhang of a house, a garage or other structure before lighting it. An overhang will serve to deflect flare-ups and radiate heat into the structure itself, which could result in a fire.

Always confirm that this Barbecue is positioned more than 36" (91.4cm) away from any combustible materials or surfaces before lighting it, and that no gasoline or other volatile substances are stored in the vicinity of this Barbecue. The temperature of a grease fire or of the radiated heat might otherwise be sufficient to ignite nearby combustibles or volatile substances. Do not position near windows, siding, or fencing.

Always locate the Barbecue where there will be ample combustion and ventilation air, but never position it in the direct path of a strong wind.
